Chapter 361: The Luminous Legion

Within the boundless expanse of the True Absolute One Domain, Sung Jin-Woo, the True Absolute One, turned his attention to creation once more. He focused on spreading his influence across the multiverse while ensuring its safety and prosperity. This time, he extended his divine will into the essence of luminous light, giving birth to a vast celestial army.

The Creation of the Luminous Legion

From the radiant brilliance of divine light, Sung Jin-Woo created centillions of angels, each imbued with his boundless power and divine purpose.

1. Structure of the Luminous Legion:

Two-winged Angels: The foundation of the legion, tasked with guiding and nurturing life across the realms.

Three-winged Angels: Warriors and guardians, protecting civilizations from external threats and maintaining balance.

Four-winged Angels: Commanders and emissaries, carrying out Sung Jin-Woo’s will and directly managing divine affairs in the realms.

2. Appearance and Abilities:

Each angel radiated light so pure it could heal the broken, cleanse corruption, and inspire awe.

Their wings shimmered like prisms, refracting divine energy into beautiful displays across the skies of the multiverse.

Their voices harmonized, creating celestial melodies that calmed even the most chaotic souls.

3. Purpose and Role:

Spread Sung Jin-Woo’s teachings and blessings to every corner of existence.

Protect the multiverse from external entities and dimensional catastrophes.

Assist the Divine Triad’s followers and priests in their duties.

Filling the Skies Across Realms

As Sung Jin-Woo released the Luminous Legion, the angels spread out, filling the skies of countless realms with their glowing presence.

1. The Absolute Realm Universe: The angels became visible across the skies of the Absolute Realm, their light strengthening the resolve of the Divine Triad’s worshippers.

2. Mortal Realms: On Earth and other mortal worlds, the angels guided humanity and other intelligent beings toward unity and enlightenment.

3. Battlefronts: The angels stationed themselves at the edges of the multiverse, ensuring no threat could penetrate the Divine Triad’s domain.

The Radiance of Unity

The presence of the Luminous Legion brought unprecedented peace and harmony:

Mortals found inspiration in their beauty, striving to better themselves.

Followers of the Divine Triad felt a surge of divine energy, their faith rewarded with blessings.

Outer Entities were deterred by the overwhelming display of power and light, knowing the multiverse was under the protection of an infinite being.

Sung Jin-Woo’s Reflection

Sitting on his throne, Sung Jin-Woo observed the Luminous Legion’s deployment. His all-seeing eyes followed their journey, ensuring their presence brought hope and not fear.

"This is only the beginning," he thought. "With each creation, I draw closer to my purpose: a multiverse of peace, light, and growth."

As the angels spread his light, the multiverse glimmered with renewed life and beauty.
